

Gheorghe Barbuta

Senior Full-Stack Web Developer

Moldova · Open to remote, long-term roles and well-defined projects

Professional Summary

Senior full-stack web developer with strong experience building scalable, high-performance web platforms and business/SaaS applications. I specialize in delivering reliable, maintainable systems that perform well in real-world conditions. I work closely with clients to understand actual business needs and translate them into clear, practical technical solutions.

Core Expertise

- Scalable web platforms and SaaS systems
- Frontend and backend architecture
- API design, integration, and long-term maintenance
- Performance optimization and system stability
- Business-oriented problem solving
- Clear communication and responsible ownership

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML, CSS

Backend: Node.js, Express, PHP, Python

Databases: MySQL, PostgreSQL, MongoDB

APIs: RESTful APIs, GraphQL, third-party integrations

Tools: Git, GitHub, Figma, CI/CD, Linux

Additional: WordPress, automation, AI bots, system integrations

Professional Experience

Senior Full-Stack Web Developer

Remote — Contract & Long-Term Engagements

- Designed and developed scalable web platforms and business-critical applications used in production
- Translated business requirements into stable, maintainable technical architectures
- Built and integrated backend services and APIs for internal systems and external providers
- Improved application performance, reliability, and long-term maintainability
- Identified issues early, communicated clearly with stakeholders, and implemented proper fixes
- Took responsibility for delivered systems in both independent and team-based environments

Working Principles

Real projects are not perfect. I address issues early, communicate openly, and fix problems properly rather than temporarily. I value clarity, responsibility, and long-term stability over shortcuts or unnecessary complexity.

Availability

Open to long-term remote roles, long-term collaborations, and clearly defined projects.
